Section 1: Executive Summary

Executive Summary

Consolidated (Incl Adara)

- ✓ FY25 YTD August, gross revenue stands at \$51.4mn, reflecting a 14% increase from the previous year but falling short of the \$54mn budgeted target. EBITDA is reported at \$9.67mn, compared to the \$9.94mn budgeted, marking a 2.7% shortfall primarily due to lower distribution performance, largely attributed to AWS costs. The EBITDA margin for YTD FY25 is 19% of gross revenue
- ✓ In August, with Adara included, gross revenue was \$10.34mn, achieving a gross margin of 71% and an EBITDA of \$2.19mn. Costs were better than forecasted across all departments. The company is performing well in key revenue streams such as **DaaS and MarTech**, demonstrating strong year-over-year growth. However, the decline in new bookings is a concern and will require close monitoring.

Adara:

✓ Adara estimated revenue for Aug'24 is \$4.2mn with 65% GM and \$930k EBITDA.

DaaS:

DaaS Aug revenue was entirely in line with the forecast. Car & Air outperformed the forecast which is offset by OTA decline.

- New bookings were off by 45% which is an area of concern. With \$2.4mn new bookings to date; we're down by 9% in new bookings Y-o-Y basis.
- \$400k YTD revenue downtick from the budget is entirely offset by favourable YTD costs from the budget. Also, Revenue growth is higher than cost growth
- EBITDA for Aug 'FY25 exceeded the forecast by 9%, indicating strong profitability. YTD EBITDA is entirely in line with the budget showing overall good performance; YTD EBITDA at \$4.1mn (Act) v/s \$4.1 (Bud); INLINE.

Travel BI:

Travel BI's August revenue of \$2.09mn aligned with the forecast; Car & Air outperformed which was offset by a decline in OTA revenue.

- Data cost was lower due to a lower Travelport bill following successful negotiation. Also, the excess provision from July was reversed in August; Proxy cost was higher due to Google consuming high proxies due to increased requests, a major load moved on to Premium proxies from fixed, and PX2 captcha solution for priceline.com \$3.5k per month (approved recently)
- Expenses were lower; by \$58k as we see savings across all departments. On a YTD basis, total costs were better by \$340k from the budget.
- ✓ Revenue showed a year-over-year growth of 21%, with YTD EBITDA reaching \$3.9mn compared to \$3.3mn last year

Executive Summary

Hospi BI:

- ✓ Hospi Bl's revenue for August 2024 slightly exceeded the forecast, and there was a significant improvement in EBITDA, with a year-to-date EBITDA of \$180k compared to a budgeted loss of \$28k primarily due to one-time Scandic revenue (\$99k) and allocation benefits.
- August Hosting & Data costs are trending in line with the forecast except for a one-off bill from Sabre (8k) which is a settlement of last year's bill.

Distribution

For Aug'24, Distribution revenue (Excluding IHG) reported at \$1.93mn, marginally lower than the forecast of \$1.95mn. This shortfall is majorly contributed by lower enterprise connectivity revenue, while RZ and UNO revenue met expectations

RΖ

- ✓ Rezgain August revenue was in line with the forecast, although billing from OYO remains lower than anticipated (\$33k budgeted vs. \$23k actual for August 2024).
- ✓ Overall expenses are in line with forecast, except for Sales expense due to re-seller commission paid to Reconline (\$6k)
- Aug-24 EBITDA stand at negative \$17k act v/s forecast of negative \$26k (an improvement)

Enterprise Connectivity

Aug revenue of \$1.56mn is marginally lower than the forecast mainly due to lower OTA volume (Hotwire & DER) and lower one-time revenue recognition for Amadeus (which was deferred to next month). This shortfall was partially offset by an increase in GDS volume (majorly due to Marriott & Hyatt)

Martech (Ex. Adara)

✓ For August 2024, revenue excluding Adara was approximately \$965k, falling short of the forecast by \$53k. BCV revenue was 9% below forecast (\$40k short), while MHS net revenue was down by 2% (\$13k short) from forecast.

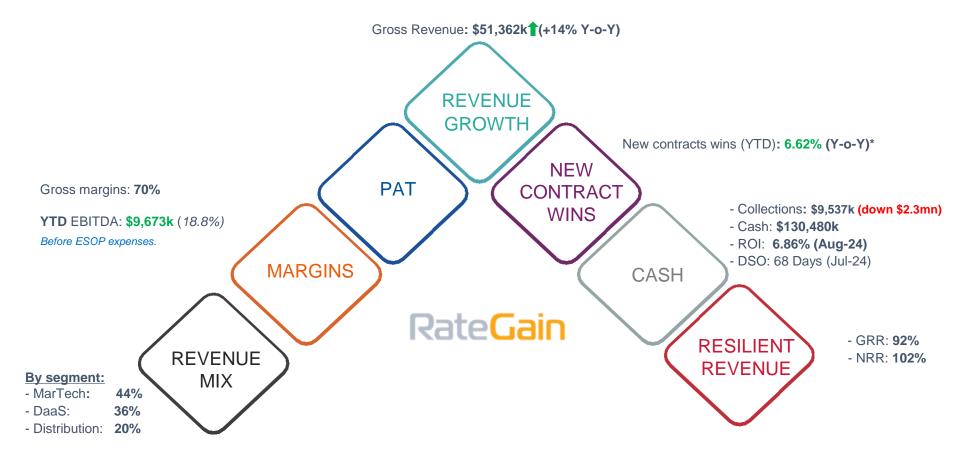

BCV

✓ BCV reported August revenue of \$395k against the forecast of \$436k, The decrease in revenue was primarily due to no **One-Time-Upsell** revenue against a forecast of **\$25k** and no new sales revenue from August sales. The New sales closed in Aug'24 of **\$149k** will have the revenue start from Oct'24 onwards. Other overhead costs − had savings in Sales (low T&E expenses), Marketing, HR & Finance, and an SMM credit of **\$4k** restricting the EBITDA loss to \$29k even with a \$41k drop in revenue.

MHS

- Very Net revenue (GOI) for August was \$568k; YTD August FY'25 GOI at 46%. MHS Aug.'24 revenue is lower by \$13k compared to forecast due to lower ad revenue.
- MHS August EBITDA is at \$60k vs. forecasted EBITDA of \$64k driven majorly by the decline in revenue.
- ✓ YTD Aug FY25 EBITDA is lower by \$122k in comparison to Budgeted EBITDA and down by \$172k in comparison to YTD Aug. FY24 actual EBITDA due to Novum churn.5

Travel BI August revenue of \$2.09mn was in line with the forecast, <u>Car & Air outperformed the forecast which is offset by OTA decline.</u>

- ✓ Data cost was lower due to lower Travelport bill post-hard negotiation. Also, the excess provision from July was reversed in August; Proxy cost was higher due to − Google consuming high proxies due to increased requests, and Fixed Cost Proxies were burned, so a major load was moved on Premium proxies. Also, we approved PX2 captcha solution for priceline.com- \$3.5k per month
- ✓ Expenses were lower; by \$58k as we see savings across all departments. On a YTD basis, total costs were better by \$340k from the budget.
- √ Y-o-Y revenue growth of +21% and EBITDA of \$3.9mn vs. \$3.3mn last year

- <u>OTA August revenue was down by \$34k from the forecast</u>: Lower Agoda billing (by \$29k) was a key reason; In the estimates, the FP&A team had anticipated minimum billing overages based on delivery; however, as discussed with Ankit & it was agreed based on the contract that the minimum billing overages would be calculated on Agoda's request rather than what was delivered. The Rest is due to a few projects being rolled back; Clear Trip with a \$3k impact
- Proxy cost was higher due to Google consuming high proxy due to increased requests and Fixed Cost Proxies were burned, so a major load was moved to Premium proxies. Also, we approved PX2 captcha solution for priceline.com- \$3.5k per month

New and Renewal methodology: New and Renewal sales are determined based on 12 monthly concept i.e., if we had any advertiser in LFY and the same is appearing in the current year that would be considered as Renewal, and if it's coming for 1st time Or closed after a gap of 1 year that is considered as New Sales

Note – Due to the long list of new advertisers we have only included >\$50k entries for Media and >\$ 10k for Data in the above tables

[✓] BCV reported August revenue of \$395k against the forecast of \$436k, The decrease in revenue was primarily due to no **One Time Upsell** revenue against forecast of **\$25k** and no new sales revenue from August sales. The New sales closed in Aug'24 of **\$149k** will have the revenue starts from Oct'24 onwards. GM were **10%** lower as compared to the forecast majorly due to a drop in revenue.

Other overhead costs – had savings in Sales (on account of low T&E expenses), Marketing, HR & Finance, and an SMM credit of \$4k which helped in restricting the EBITDA loss to \$29k even with a \$41k drop in revenue.

Reasoning on DSO:

Hospi -

Reason for the difference in DSO 120 and adjusted DSO 112:-

- · Amount outstanding to "Wavyssa" of \$ 53k which is still outstanding due to the payment plan agreed with them.
- Amount outstanding to "Oyo" amount of \$ 160k out of this \$ 108k pertains to more than 60 days bucket. The client holds the money due to the outage in the month of Sept'23. amount to \$ 45k.

<u>Travel</u> -

Reason for the difference in DSO 64 and adjusted DSO 64:-

· Amount outstanding to "Go Air" \$ 21k which is outstanding due to the company being under liquidation and proceeding with NCIT.

DHISCO -

Reason for the difference in DSO 57 and adjusted DSO 54-

HorsBV amounting to \$41k which is still outstanding due to the payment plan agreed with them. The customer is paying \$500 per month.

<u> Adara</u> -

Reason for the difference in DSO 79 and adjusted DSO 79:-

- Amounts outstanding to "Big Village" and "Agencies Braque" of \$ 44k and \$ 9k due to the company's liquidation (We have already submitted our document for the outstanding amount to the liquidator.)
- The main reason for the increase in Adara DSO is majorly due to the Agencies customers. These customers normally have 60-90 days agreed payment terms however they only pay after the payment is received from the customer. Further, The ratio of Agencies vs Direct customers is around 65% 70%.

MHS APMEA -Reason for the increased DSO 136:-

• In APMEA customers are asking for the Booking Id of the transaction but we don't have such booking ids for the past data due to this customer hold our payment. However, we are working with respective AMs to get these amounts clear by negotiating them. Currently, the amount is approx. \$ 200k.

Sales & AM cost allocation (flowchart) basis target

- In FY24, BU leaders raised that GTM cost is not correctly allocated to their respective P&Ls resulting negative impact on their business margins
- To counter this we have allocated cost basis the sales target given/budgeted by the GTM teams
- The biggest hit will come in MHS because of the focus on the Demand booster business in the APAC region
- This will help us take the right investment calls in future
